

Not on Facebook?

In order to see St. Paul's Facebook profile, you must have a Facebook account. Creating an account is simple and free. You can do very little with Facebook or you can jump right in and share your life with the whole world.

Open your browser and navigate to: www.facebook.com

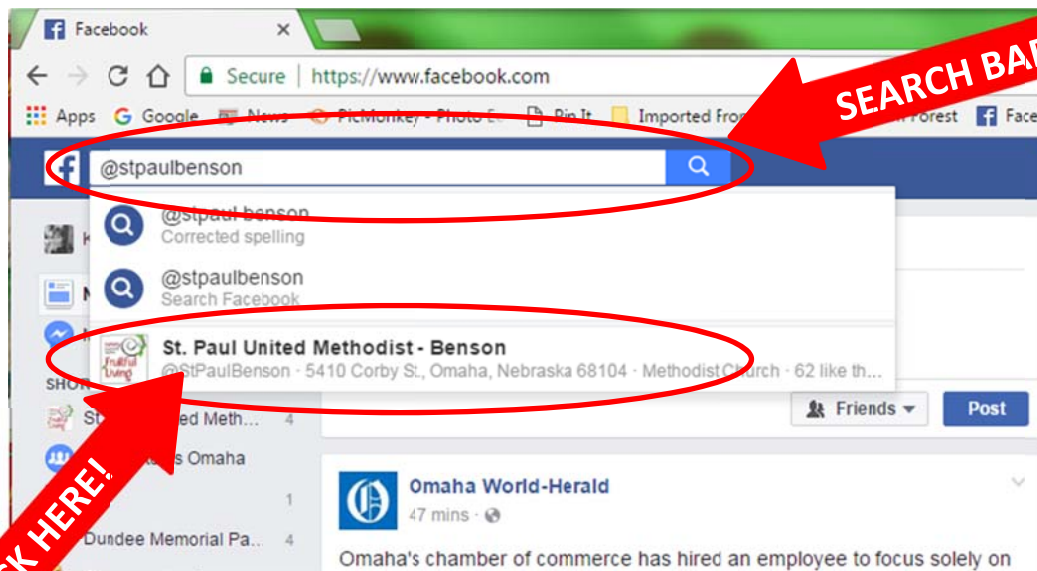

The next screen that appears asks for information to help set up your own profile. Follow the instructions (including the confirmation in the top blue bar) then, you'll be ready to search for friends, family, and St. Paul's page (@stpaulbenson).

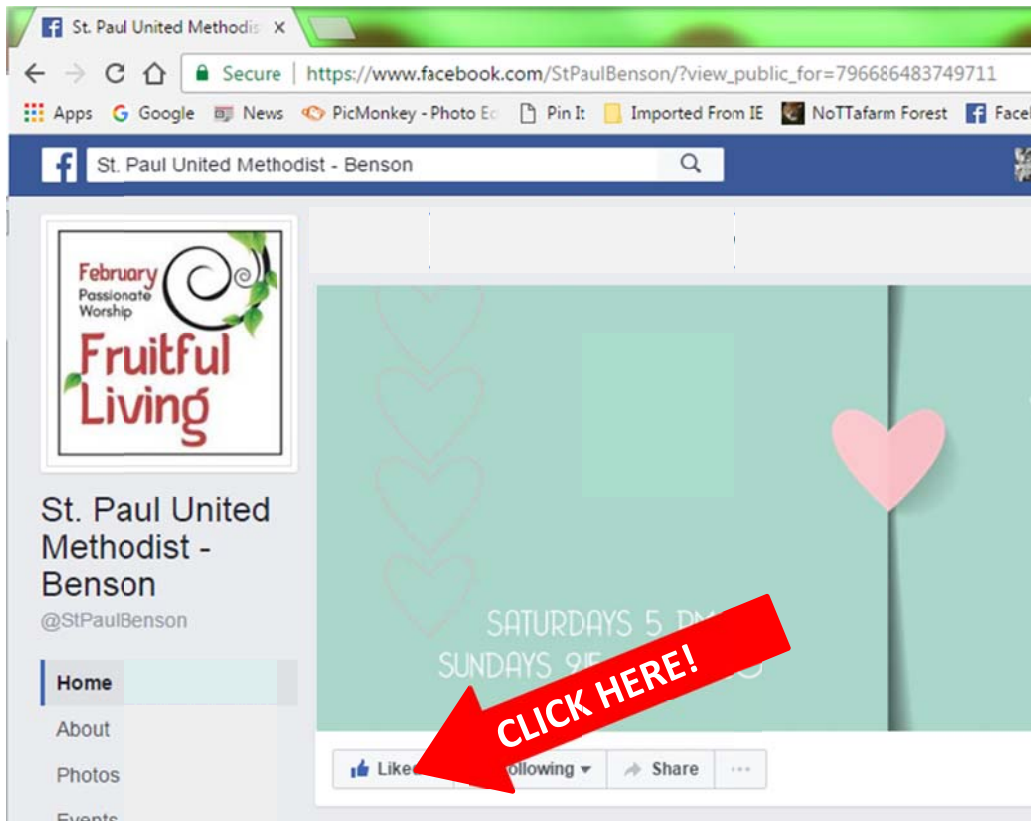

Already on Facebook?

Search for @stpaulbenson and “click” on the page that appears in the dropdown.

You will be taken to the St. Paul profile page.

Congratulations! You now “like” St. Paul and all of our posts will appear in your News Feed. Remember to “like” posts, too; it spreads St. Paul around Facebook to your friends and then to their friends. The circle widens with every click!
