

## **Building Stewardship – Your Input Welcome**

I would be happy to get your input during a brainstorming period in our upcoming Church Council on November 26<sup>th</sup> at 7 p.m. in the Church Parlor regarding the best use of our substantial building beyond congregational use. Do we want to stay in the business of providing Child Care? If so, do we want to maintain our present structure or develop a new approach that provides new models for classroom leadership and families that participate? Do we want to underwrite the Child Care with Foundation funds or seek grant monies for innovative approaches?

Another option of building use would be to conclude our Child Care. This would allow the two congregations presently worshipping at St. Paul on Sunday afternoons greater space for their programming on Sundays and throughout the week. A building without Child Care would allow St. Paul to nurture relationships with non-profit organizations that engage in activities that St. Paul affirms and provide them with office and program space. Please bring your ideas and comments.

Thanks,  
Pastor Scott
